

I believe in Hate through infinity  
Watch it rise - My kingdom of rape!  
I lead a horde of born again antichrists, blessed be the all human way!  
I create new dis-order and pain.  
I make you worship my Hate beyond mortality  
Death reigns! My crusade, my apocalypse is coming near...

Repugnant bringers of pain  
Self-acclaimed gods of wicked games  
Empire of nothing, empire of filth  
Endless crusades, battlefield eternal...

I puke at your idols, I flourish in your disgrace!  
A war to embrace man's sunset  
A chorus of breaking necks  
Cracking necks...

Drink from the chalice of your blindness  
In the name of fake idols, gods and antichrists.  
The exquisite machinery of torture - Every army bows to this  
Drink from the chalice of your blindness  
Fake idols, gods and antichrists...

There is no light at the end of the tunnel!  
Take last breath and then you will melt into nought  
Another step to salvation of insanity  
The crusade is nothing but failure  
I am death, a plague to ensure thy fall  
Shines the light on your life of agony

Creation and anti-creation, suicidal crusades  
Blood, Fire, Dust, War!
