

# Festival Of Slaves

Hate

(eli baltuti ima idu mituti)

We have faith in poison!  
Suicide! Suicide! Please make it today!  
A wound from a perfect blade  
Oh, that is what I crave!  
Suicide! Suicide! Just come and release  
A stream of blood from my wrists...

Slave cult for the worm-face  
Like a break in darkest of corners  
Saviors and martyrs of a deadly disease  
Darkness and time will hide  
Will destroy every trace of mine  
LIFE IS NOTHING BUT BLINDFOLD!

Slave cult race!  
Slave cult race!  
Insanity devouring what is left of this reality  
Murderous shining lust!

Oh, set me ablaze!

Have no voice. Have no pride! My self is denied  
I am a slave and a martyr  
Genocide! Genocide! The dawn of new world  
Pain is only a weakness  
Genocide! Genocide! Is what we designed  
Death is just an escape!

Slave cult race!  
Slave cult race!  
It is nothing but blindfold - Life  
Will destroy every trace of mine  
Devouring what is left...

Insanity devouring what is left of this reality  
Murderous shining lust!

Slave cult for the worm-race  
Like a dream in darkest of corners  
Saviors and martyrs of a deadly disease  
Darkness and time will hide  
Will destroy every trace of mine  
Life is nothing but blindfold  
... Is nothing but blindfold!
