Hate

Black cold sea is all we can feel  
Wound of fire is a burning torch  
Wound of fire!

In the realm of pain we live  
Razor's edge has no remorse  
Razor's edge - The warmaker  
Shifting channels of perception  
We found holy grail of insanity

Flames that rise devour flesh of God  
Black cold river flows through this  
All life is bound - Interconnected chain of death  
For everyone is born in grave  
Born in grave!

Inhale! Pain! Divine!  
Hatehammer! Let the darkness grow!  
Hatehammer! Black starlight!

The idol crusher - Perverted blood  
Yeah, we exist in thy glory  
Kings of pain, kings of sadness  
We have come to this...

Annihilation of all life  
Death is so pervert and bright  
Silent and calm the faceless queen of chance

[Solo: Destroyer]

Flames that rise devour the flesh of God  
Black cold river flows through this  
All life is bound - Interconnected chain of death  
For everyone is born in grave  
Born in grave!

Inhale! Pain! Divine!  
Hatehammer! Let the darkness grow!  
Hatehammer! Black starlight!  
Hatehammer! The warmaker!  
Hatehammer! Black starlight!
