

# Timeless Kingdom

Hate

(usella mituti ikkalub altuti)

Praise the dwellers in ethereal realm of dust  
From timeless void comes all existence  
They still walk through countless years to come  
They still march with shining blade reflect the sun

Seeking solace crimson death - The shifting sky  
Swallow dust of a thousand years to come  
Infectious star - thou art terror incarnate  
Infectious star from black heavens!

Giant maze - The seed of mortality  
Giant star devouring all galaxies  
Kingdom of dust - Revelation of the end  
Kingdom of dust to set the world in flames!

The sun is fire that burns the soul  
The sun is a virus that slowly kills  
It brings you closer and closer to hell  
Takes its toll. Do not spare a single soul

Shamash illuminate! Caught me in trance in your spell  
Clash with the underworld!  
Shamash illuminate! Caught me in trance in your spell  
Clash with the underworld!

Praise the dwellers in ethereal realm of dust  
From timeless void comes all existence!  
They still walk through countless years of chaos  
They still march with shining blade reflect the sun

Seeking solace crimson death - The shifting sky  
Swallow dust of a thousand years to come
