As Diehard As They Come

Hatebreed

Some of us have had that fateful day When harmony fades and life stands still Those who were willing to sacrifice Were blessed with the instinct to survive

This is for those who've escaped the torment You know real courage

You are as diehard as they come

This is for those who never wavered You are fearless

You are as diehard as they come Never waiver, never falter- REMAIN DIEHARD

You are as diehard as they come You are as diehard as they come
