

I won't celebrate your genocide  
And I won't consume your lies  
And you cannot deny how your selfish ways  
Kill and ruin innocent lives

People have been exploited  
People have been killed  
Humanity has been raped  
And still I see no cure  
I won't consume your filth

Filth is what you know  
Filth is what you consume  
Filth is all you know  
I'm gonna take you out  
I will return your filth

I can justify your suffering  
Can you justify theirs?  
You degrade and destroy  
Life as we know it  
To profit at any cost

I won't consume, I won't take part  
I cannot and I won't  
I won't consume your filth

Filth is what you know  
Filth is what you consume  
Filth is all you know  
I'm gonna take you out  
I will return your filth
