

Hear Me

Hatebreed

I used to think the day would never come
It's on my heels and I'm running on my own
Carefree days, man I never knew
They could catch me and stick to me like glue

It was so funny, remember how we laughed
Growing cold, I can't get away from the past
It goes right for my throat
It crushes me, but I won't let it show

If I do, you might see that I'm scared
I want to run, but I just don't know where
Once again my fists hide my fear
Each blow is followed by a tear

It was so funny, remember how we laughed
Growing cold, I can't get away from the past!
I can't get away from the past!

Oh yeah!

Can you hear me? Hear when I scream
You hear my words, but do you know what I mean?
I'm tired, tired of the games we play
I'm through fighting, you'll never know what I wanted to say
