

## Disbeliever

Hatesphere

Covered in skin  
Covered in sin  
It's all about reaching out  
And then begin, then begin  
To feel the shadows coming in

It knows how to feed me  
And beat me  
It knows how, how to treat me  
And beat me

Kept in a cage  
Enrage  
Looking through the bars  
The stars glitter in the night  
Glitters so bright

It knows how to feed me  
And beat me  
It knows how, how to treat me  
And beat me

I broke the bars but saw no stars  
I peeled my skin but felt no sin  
I'm reaching in, but can't come out  
Only doubt...  
I wonder where  
I wonder why  
I wonder how to reach the sky  
It's just a lie
