beware for lust can't you see it brings misery? start chasing your dreams get a life aint that what you want? you better believe it

you thought about quitting all just waiting to take the fall

who would you blame for leaving this earth? when you've felt like this since your birth losing your self-esteem waiting for life just to end your living is too extreme

you thought about quitting all just waiting to take the fall

somebody told you you were useless that's where your own world drown no one knows who you are now just stay down for good

you've tried to hide your best it sucked, so fuck the rest it made no sense to me why is it that you can't see you wanted to be alone you wanted to be left alone

take your life
there's no point in waiting
take your life
just get the job done

you're so low
