

# Fear Me

Hatesphere

bury yourself six feet deep  
become a rotten dead seed  
drag trail of blood red waste  
to the altar  
do the sacrifice or you will fear me

obsessive thoughts  
of violence within  
a savage mind  
fear is your existence  
among the killing kind

pray you will never be my victim of choice  
I will bring silence to your screaming voices  
drag a trail of blood red wast to the altar  
do the sacrifice or you will fear me

I will take your life  
I will free your soul  
let the means of violence  
be justified by your downfall

fear me  
I'm coming for you  
the end is near  
there is nothing left for you
