

## In the Trenches

Hatesphere

Feel free to try just know, that I will kill you.  
Your mouth untrue, unravelling with rancid filth.  
As charming as a snake you'll be put to sleep, with a blast from here and to oblivion.

No more self proclaimed and sacred shit, I will tear these lies apart.  
And in blasphemous disgust, I will mark the start of the killing.

For I am a devil, here to do the devils work.  
The utmost unholy, the baddest motherfucker in hell.

No more self proclaimed and sacred shit, I will tear these lies apart.  
Anguish and turmoil will rot you inside out.

I am a devil, here to do the devils work.  
The utmost unholy, the baddest motherfucker in hell.

Fake and worthless, you have spread your illness wide.  
But today, I will deprive you of life.  
Take your fucking life.  
Take your life.
