

# Marked by Darkness

Hatesphere

Hear the screams from the underworld  
And feel the evil come creeping on you  
All these lovely creatures gathered here tonight

Legions of death lead by me  
I, the master in command

The sign of destruction  
Into battle with a force so strong  
I, am marked by darkness  
I have no mercy

Oh yes, blood and guts will be spilled  
This method of destruction - crushing you and your world

Legions of death lead by me  
I, the master in command

Let in rain with blood  
Let it rain in blood upon my name

Blood and guts spilled now  
More blood soaks the ground  
See the sky turn black  
As the stench of corpses fills the air

Let it rain with blood upon my name  
My wrath will take you, I have no regrets  
My blackened heart will see you all dead

Legions of death lead by me  
I, the master in command

Let in rain with blood  
Let it rain in blood upon my name

[Solo - Peter]
