

Creeping pole-changing  
anger implant  
silent offence  
domination spread  
key to control  
any primitive action

The root feeds the bud  
the symptoms rise  
long-range weapons  
distant control worldwide  
feedback pride never deny

The public is synchronized  
prepared to find  
the solution to keep itself blind

Prepare to retaliate  
represent something  
free from defects  
easy to inspire  
an already flaming object  
most logic way  
to demonstrate  
an innermost faith  
the public is synchronized  
prepared to find  
the solution to keep itself alive

Hidden but existing  
pervert all natural laws  
immense resonance  
extend to the end  
regenerate  
respect  
no escape  
hit me master whoever you are
