

# Tame

Haujobb

Where to hide my eye  
were too high to do  
scaring me  
heavy shots  
understand normality  
not understand their defense

Misery  
proper guilty

"weapons"

Strangers lines  
no change equal minds

Cannot look in that face of life  
living until you die  
alone  
buried alive

Level c?tl  
it's weak

Crap stick on a  
disturbing factor build up the fairylands  
without remorse  
cured of redempts  
in my  
lifestyle  
void of life

Level c?tl?k  
it's weak

"Shoot shoot shoot shoot"

This creature belongs to disease  
there can never be a mitigator  
within the meaning of menopause  
but first  
living on destiny

And die  
cleaning all around the  
with no bombs and I can move  
I can watch  
selfishness  
national defense  
national defense ahhhh
