

Bad Bad Girls

Havana Brown

Oh no
As the daytime turns to black
And the blue skies fade away
All the boys come out to play
While the good girls free of their fate

Oh yes
As the girls drop to the floor
And you know that less is more
What is left with feels that you put aside like a good girl?
Go

This club is only for the bad bad girls
Raise your hands high if you're a bad bad girl
Kiss the first boy you see if you're a bad bad girl
If you like to think about it you're a bad bad girl
Bad girl...

Ah ah uh
It's so hot it makes me dry
And tonight you are the one
Can you keep up with me?
Let's pretend that we're in love

In the dark
Let the temperature lead the way
Let the light erase the grey
As the bass gets harder
I'm getting higher, take me away

This club is only for the bad bad girls
Raise your hands high if you're a bad bad girl
Kiss the first boy you see if you're a bad bad girl
If you like to think about it you're a bad bad girl
Bad girl...

Uh yea
You big rude sexy mother...
You want that hard hard
Bend over
Bend over
Naughty... naughty naughty
