

# One More Time

Havana Brown

You take me back when we were forever  
Wish I, I was still there with you  
Young hearts, heat of the moment  
Flying high

I flashback, you're standing in front of me  
I still, still give it all for you  
Tonight let's make forever here again

Remember when we said we'll leave the world behind?  
We could have it all  
Together you and I  
Remember when we said we'll leave the world behind?  
We could have it all  
Together one more time

We can have it all  
Together one more time

I flashback, you're standing in front of me  
I still, still give it all for you  
Tonight let's make forever here again

Remember when we said we'll leave the world behind?  
We could have it all  
Together you and I  
Remember when we said we'll leave the world behind?  
We could have it all  
Together one more time  
(2x)

One more time  
One more time  
We could have it all  
Together one more time
