

When I Sleep

Have Mercy

All of our lives turn to black
And there's no turning back

But you are the best thing that I've ever had
And we, we were not that bad
No one knows the inside jokes or fun we had
And we, we were not that bad

But you are the best thing that I've ever had
And we, we were not that bad
No one knows the inside jokes or fun we had
And we, we were not that bad

You said that you would be there when I sleep
So why are you not next to me?

Why are you not next to me?

And we, we were not that bad
Why are you not next to me?

Cause heaven is the one that I've never had
And we, we were not that bad
No one knows the inside jokes or fun we had
And we, we were not that bad

You said that you would be there when I dream
So why were you not next to me?
