

Chasing the Edge

Havok

Are you searching for the real truth?
Every uncertainty withdrawn
I need to break it to you
The old way of thinking is dead and gone

We're not the center of the universe
Take a look and see
The contradiction pointed in reverse
I will be...

Chasing the edge
Chase the edge

Rethink the possibilities
Turn the whole world upside down
You've lost all credibility
Not a shred of honesty to be found

So, here we are staring into the void
The old way of thinking has been destroyed
You need to just accept the fact
That an open mind has the biggest impact
