

# Intention to Deceive

Havok

I'll tell you what you need to hear  
I'll show you what I want you to see  
Incapacitating you with fear  
Repeat the lies until you agree  
Never mind what the facts are  
I made a story that needs to sell  
Journalism is an afterthought  
Keep you stupid, so you will not rebel

Opposing independent thought  
With the intention to deceive  
Misinformation is the plot  
With the intention to deceive

Your mind was an open book  
Until I told you what to think  
I'm gonna fill it to the brim  
With lies so your mind shrinks  
Submit to my train of thought  
And I'll take you for a silly ride  
Fit your mind into my mold  
Constructed to misguide

Opposing independent thought  
With the intention to deceive  
Misinformation is the plot  
With the intention to deceive  
Force feeding lies  
Open your eyes

The formula: hysteria  
Followed by amnesia, gullibility, and phobia  
The formula: hysteria  
Followed by amnesia, gullibility, and phobia

I'll tell you what you need to hear  
I'll show you what I want you to see  
To make you paralyzed with fear  
While I let you think your mind is free  
Never mind what the facts are  
I made a story that needs to sell  
Journalism is an afterthought  
Keep you stupid, so you will not rebel

Opposing independent thought  
With the intention to deceive  
Misinformation is the plot  
With the intention to deceive
