

## It Is True

Havok

Have you ever gotten suspicious  
Of the things they try to sell you?  
You better wise up  
To the bullshit that they tell you  
I can't believe we live in a world  
Where ignorance is bliss and thoughts are controlled

Have you ever heard of using common sense?  
In this crazy world it's our only defense  
To stop all the lies  
To stop all the hate  
To stop, stop, stop theological debate  
The world could be a better place in the end  
If we all could just admit...

It is true  
They lie to you

Do you even possess a single thought of your own?  
Or do you believe everything you're told?  
How can you sleep with this in your mind?  
Your lack of logic ought to be a crime

If I had the chance I'd say it your face  
Start thinking for yourself or leave the human race  
There is no time for making the mistake  
Of letting them get away with preaching and teaching  
what is fake

Solo - Scruggs

How many people need to die  
Before you wake up and give your fucking brain a try?

Life is too short to waste time on things  
That don't make sense to you or me  
It's obvious and you can see, it's right in front of you

It is true  
They lie to you  
There's no truth  
There's no truth  
There's no truth
