

# Point of No Return

Havok

The world is turning black  
There is no turning back  
We've reached the point of no return  
You need to open your eyes  
You can see it even if you're blind  
There is so much we've yet to learn  
It should be stressed  
To change the world around us  
Before everyone is dead  
Distractions all around  
Mankind must be profound  
And look at what is ahead

We can change our future  
We can change our future  
We can change our future

Right now

Perseverance  
The concern  
Can't go back  
Point of no return

Perseverance  
The concern  
Can't go back  
Point of no return

Turning the pages of our lives  
We write the book  
We choose the cause and effect  
What's done is done  
Stuck in perpetual motion  
Past, present, future connect  
It should be stressed  
To change the world around us  
Before everyone is dead  
Distractions all around  
Mankind must be profound  
And look at what is ahead

We can change our future  
We can change our future  
We can change our future

Right now

Perseverance  
The concern  
Can't go back  
Point of no return

Perseverance  
The concern  
Can't go back  
Point of no return

We can change our future  
We can change our future  
We can change our future

Right now

Perseverance  
The concern  
Can't go back  
Point of no return

Perseverance  
The concern  
Can't go back  
Point of no return
