

## To Hell

Havok

Keep your distance from my life  
You want to talk to me? You're gonna meet my fist  
Mess with me I'll mess you up  
You've never seen a temper quite like this  
Stay away from me right now  
I got a pistol cocked and I'm pissed  
Pull the trigger, yes I will  
Seeing you die would be total bliss

Why am I smiling? You wonder why  
Cause it's time to kiss your ass goodbye  
Said it once, I'll say it twice  
Tonight's the night you're gonna die!  
Look in my eyes and you will see  
Tonight's your final destiny  
You won't wake up again oh no!  
Final shot - to hell you go!

Threaten my safety I'll threaten yours  
All I see now is an open door  
Opening up to your thoughts of pain  
Fear is driving me insane!

Getting to the boiling point  
One day soon you shall be joined  
By the dark lord in his home  
Very soon it will be your own!
