

# Waste of Life

Havok

You don't know where it is you're going  
But you know you're on your way  
Life only gives what you apply  
Spend every day just searching  
For something to pass the time  
So many ways to waste a life

Debasing  
Replacing  
Embracing  
Time wasting  
Quit thinking  
Mind shrinking

Wasting your life

Wasting away in a pseudo-existence  
Let reality pass you by  
Apathy and consciousness collide  
You can join the real world  
Don't let it be denied  
Cut the cord: activate your mind

You don't know where it is you're going  
But you know you're on your way  
Life only gives what you apply  
Don't let it be a last-minute decision  
To stop throwing away your time  
Before you know it, it's over and you die

Stop wasting your life
