

# We Will Still Need A Song

Hawksley Workman

Fuck you, you're drunk and acting tough  
I know you're sad you're not the only one  
Who feels like that now

And maybe anger is your only choice  
But maybe heart and fist and human voice  
Might be the better way  
Be the way

Cause we, we will still need a song  
To carry our love away  
To carry it away  
We will still need a song  
To carry our hearts away  
To carry them away

Don't let another tear be in your eyes  
We can die in peace knowing we tried  
To change our own ways

The poets let a generation down  
And modern music could be the healing sound  
It's the only way  
Only way

Cause we, we will still need a song  
To carry our love away  
To carry it away  
We will still need a song  
To dance on our wedding day  
To carry it away

And we will still need a song  
(we will still need)  
To carry a song (carry a song)  
To carry a song

And we, we will still need a song  
To carry our hearts away  
To carry them away  
We will still need a song  
To dance on our wedding day, yeah  
To carry it away, yeah

(Last chance for feeling sad  
I'm tired of feeling down)  
(Last chance for feeling sad  
I'm tired of feeling down)

This will be your last chance  
Cause I'll never again feel down

(Last chance for feeling sad  
I'm tired of feeling down)

Cause we, we will still need a song  
To carry our love away

(Last chance for feeling sad  
I'm tired of feeling down)

We will still need a song  
To dance on our wedding day  
To carry it away  
We all need a song...
