

# Silver Machine

Hawkwind

I, I just took a ride on a silver machine and still feeling mean

Oh, do you want to ride, see yourself going by  
The other side of the sky? You gotta know where I've been

And it flies sideways through time, it's an electric line  
To all the zodiac signs

I got a silver machine

(Silver machine)

I got a silver machine

(Silver machine)

I got a silver machine

(Silver machine)

In my silver machine

It flies out of a dream, it's antiseptically clean

You gotta know what I mean

Oh, do you want to ride, see yourself going by

The other side of the sky in a silver machine?

I got a silver machine

(Silver machine)

I got a silver machine

(Silver machine)

I got a silver machine

(Silver machine)

In my silver machine

I just took a ride on a silver machine and still feeling mean

Oh, do you want to ride, see yourself going by

The other side of the sky? You gotta know where I've been

I got a silver machine

(Silver machine)

I got a silver machine

(Silver machine)

I got a silver machine

(Silver machine)

In my silver machine

Silver machine

Silver machine

Silver machine

Silver machine
