

Virgin of the World

Hawkwind

The fire's burned
The ashes spread
The lifted light hears all that's said

The fire's burned
The ashes spread
The lifted light hears all that's said
We are undead

The fire's burned
The ashes spread
The lifted light hears all that's said
We are undead
We are undead

The fire's burned
The ashes spread
The lifted light hears all that's said
We are undead

The fire's burned
The ashes spread
The lifted light hears all that's said
We are undead
