

Watching The Grass Grow

Hawkwind

We are the Survivors
The eternal survivors
Androgynous energies
Travelling through time
Particle Accelerators
Morality Degenerators
Dadata Disseminators
Cyclotron attenuators
Hyperspatial Conflagrators
MEST Integrators
Well your neutron bomb neutralised your history
Wiped cancer from the Earth, and mystery
Now we're pushing over concrete
Blowing up the rockery
Watching the garden
Letting the grass grow
Letting the grass grow
We all know where the flowers went today
Media explosion blew them all away
After the thunder
Always comes the rain
We're coming up again
Letting the grass grow
Letting the grass grow
Post future reality, it's a better real world
Post future reality, it's a real better world
Post future super-reality, it's a real super world
Post holocaust hilarity, it's a super real world
Post future surreality, it's sure a surreal world
Post future surreality, it's a real surreal world
Tell me Doc Spock have you got all your answers
Ephemeral vision recalling the dancers
Picking up the pieces
In a progress picture
Taking ?????? to his ??????
Letting the grass grow
Watching the grass grow
Pieces of the omniversal zoo
But will we survive?
We always do
We're coming up again
We're coming up again
We're coming up again
Watching the grass grow
Watching the grass grow
Watching the grass grow
