

Anywhere but Here

Hawthorne Heights

I used to be the one you loved
The very one that you waited for
I stumbled up the driveway dear
I lapsed down on the floor
Not rising from my own ashes
I set the fire just to watch it burn
Now I'm fighting for my life tonight tonight

Bury me three feet below
In a shallow grave in the winter snow
Anywhere anywhere but here

Is there anybody out there?
Is anyone here at all?
Falling faster from this disaster
Watch me as I fall

Where do I go right now?
I'm next to nothing
The clock is turning
I'm sick of wasting all this breath on you
I know I'm better than I've been
Around the world and back again
After all I've been through with you with you

Bury me three feet below
In a shallow grave in the winter snow
Anywhere anywhere but here

Is there anybody out there?
Is anyone here at all?
Falling faster from this disaster
Watch me as I fall

I'm falling down
You'll listen to the sound
Breaking glass and burning ashes
Watch me as I drown I drown

Bury me three feet below
In a shallow grave in the winter snow

Is there anybody out there?
Is anybody there?
Is anybody there?

Is there anybody out there?
Is anyone here at all?
Falling faster from this disaster
Watch me as I fall

I'm falling down
You'll listen to the sound
Breaking glass and burning ashes
Watch me as I drown I drown
