

Cross Me Off Your List

Hawthorne Heights

So let us concentrate
on all those things you love to hate
it makes this all worth the wait
but causes us to separate

And i don't know how i should feel (i should feel)
these lights make it all seem real

Can you see this
or wear it on your wrist?
it's everything you wanted
the mark you always missed
can you feel this?
cross me off your list
she's everything you wanted
the mark you always missed

With dry eyes, steady hands
i tried so hard to understand
why you left us all alone
three broken hearts with a broken home

And i don't know how i should feel (i should feel)
these lights make it all seem real

Can you see this
or wear it on your wrist?
it's everything you wanted
the mark you always missed
can you feel this?
cross me off your list
she's everything you wanted
the mark you always missed

(cross me off - cross me off your list)

Can you see this
or wear it on your wrist?
it's everything you wanted
the mark you always missed
can you see this
or wear it on your wrist?
it's everything you wanted
the mark you always missed
can you feel this?
cross me off your list
she's everything you wanted
the mark you always missed
