Cross Me Off Your List

Hawthorne Heights

So let us concentrate on all those things you love to hate it makes this all worth the wait but causes us to separate

And i don't know how i should feel (i should feel) these lights make it all seem real

Can you see this or wear it on your wrist? it's everything you wanted the mark you always missed can you feel this? cross me off your list she's everything you wanted the mark you always missed

With dry eyes, steady hands i tried so hard to understand why you left us all alone three broken hearts with a broken home

And i don't know how i should feel (i should feel) these lights make it all seem real

Can you see this or wear it on your wrist? it's everything you wanted the mark you always missed can you feel this? cross me off your list she's everything you wanted the mark you always missed

(cross me off - cross me off your list)

Can you see this or wear it on your wrist? it's everything you wanted the mark you always missed can you see this or wear it on your wrist? it's everything you wanted the mark you always missed can you feel this? cross me off your list she's everything you wanted the mark you always missed
