

Sandpaper and Silk

Hawthorne Heights

Wait 'til after dark
we'll try to make a mark
one that stays until we're done

And we'll pretend again
let's try not to forget where we are
and who we're with
Who we will find.

Miles can cut this tie we've made
the sharp side of the blade

As these words play out
they'll try and drag you down
you feel like one of them
Who we will find

Miles can cut this tie we've made
the sharp side of the blade
Make sure that you can keep it
make sure you keep it in your heart
Miles can cut this tie we've made
the sharp side of the blade

Make sure you keep it in your heart
Make sure you keep it... in your heart

Miles can cut this tie we've made
the sharp side of the blade
Miles can cut this tie we've made
the sharp side of the blade
Make sure that you can keep it
make sure you keep it in your heart
Miles can cut this tie we've made
the sharp side of the blade (in your heart)
