

# Sugar in the Engine

Hawthorne Heights

There's sugar in the engine  
I feel the friction and tension here  
Sprinkled salt on the injured  
It's been such a controversy here  
With such a conversation piece

Look closely  
Life isn't what it seems sometimes  
Act lonely  
And just hope one day you'll feel alive

There's smoke all around the ceiling  
I get the feeling that no one's safe  
Concentrate on our healing  
Gather 'round you know it's worth the wait

Look closely  
Life isn't what it seems sometimes  
Act lonely  
And just hope one day you'll feel alive  
Close your eyes and make a wish  
You need more than a crucifix to survive  
I know I'll never make your list  
I just hope one day I feel alive

One day I'll feel alive (4x)

Look closely  
Life isn't what it seems sometimes  
Act lonely  
And just hope one day you'll feel alive

Close your eyes and make a wish  
You need more than a crucifix to survive  
I know I'll never make your list  
I just hope one day I feel alive (2x)

(spoken word)

On November 24th I woke up just like any other day  
Beginning of another tour just another city I've already seen before  
If I only knew that last night was the last night I would ever see you  
I would have said goodnight  
I would have said I loved you  
I would have said goodbye (12x)

(Singing over words)

Sleep  
Be safe  
Without you here  
We take the stage

And I am so afraid  
This fragile future  
My soul to take (2x)
