

# Wake Up Call

## Hawthorne Heights

Swim through these waters  
My lungs collapse as I'm gasping for air  
I'll breathe you in (and I'll breathe you in)  
You are my oxygen alone

Through arteries untold, your skin is pale, my body's cold  
Way down, deep down in my lungs  
I can hear our sweet decay

So spill my blood (SO SPILL MY BLOOD)  
Midnight skies turn scarlet red  
Say "so long," say "goodnight," and just hold out your hand  
To catch me if I fall into the night  
Say "so long," say "goodnight," and just hold out your hand  
To catch me if I fall

Everyone and everything feels like it slips away  
Way down, deep down in my lungs, I can hear you as you fade

So spill my blood (SO SPILL MY BLOOD)  
Midnight skies turn scarlet red  
Say "so long," say "goodnight," and just hold out your hand  
To catch me if I fall into the night  
Say "so long," say "goodnight," and just hold out your hand  
To catch me if I fall

Wake me up from this nightmare  
Wake me up, I know that i am drowning in the blood  
Wake me up from this nightmare  
Wake me up, I know I am drowning in the blood from a pitch black heart  
Cut my throat  
Spill my blood  
Cut my throat  
Spill my blood  
Pitch black heart

Say "so long," say "goodnight," and just hold out your hand  
To catch me if I fall into the night  
Say "so long," say "goodnight," and just hold out your hand  
To catch me if I fall
