

# We Are So Last Year

Hawthorne Heights

We're falling faster  
This is the last year  
Just a few more hours  
Until we are all alone  
This never happens  
Changing with fashion  
Just a few more hours  
Until we are unknown

I wish I could have known you better  
I should blame it on the weather  
This was over from the start  
Does it even matter?  
Our situations getting worse

Sleep in, (sleep in)  
Sleep well, (sleep well)  
With this life, (this life)  
We're set to fail

I just wanted you to know  
I think about you every night  
When I fall asleep  
You are in my dreams  
And just like in a movie  
The one you want to see  
With a happy ending

This dead letter written on black paper  
It never found her eyes  
Instead of love (instead of love)  
She only saw dollar signs

Sleep in, (sleep in)  
Sleep well, (sleep well)  
With this life, (this life)  
We're set to fail

I just wanted you to know  
I think about you every night  
When I fall asleep  
You are in my dreams  
And just like in a movie  
The one you want to see  
With a happy ending

With this life, (this life)  
We are set to fail

I just wanted you to know  
I think about you every night  
When I fall asleep  
I just wanted you to know  
I think about you every night  
When I fall asleep  
You are in my dreams  
And just like in a movie

The one you want to see  
With a happy ending
