

## This Love Ain't Big Enough

Hayden Panettiere

Back to back, lines drawn deep into the dust  
Ten paces forward staring straight into the sun  
You should've rode your high horse out of town  
You no good, lyin', cheatin' run around  
I'm gonna show you how the west was won

This love ain't big enough for the two of us  
Locked and loaded, it's high noon  
Make my day, you son of a gun  
This love ain't big enough for the two of us

Undertaker waitin' on somebody to go down  
I'm gonna take what's left of this love  
And put it in the ground  
It was a knock down, drag out romance  
Quick draw, honey, let me see you dance  
Look at who's the last one standin' now

This love ain't big enough for the two of us  
Locked and loaded, it's high noon  
Make my day, you son of a gun  
This love ain't big enough for the two of us

Pick the coffin, bury this love  
Drive the nail in, baby, I'm done  
Pick the coffin, bury this love  
Drive the nail in, baby, I'm done

This love ain't big enough for the two of us  
Locked and loaded, it's high noon  
Make my day, you son of a gun  
This love ain't big enough for the two of us

This love ain't big enough for the two of us  
Locked and loaded, it's high noon  
Make my day, you son of a gun  
This love ain't big enough for the two of us

For the two of us  
For the two of us
