

# Your New Girlfriend

Hayden Panettiere

So many crazy memories of you and me  
Like the time we drove to the OC  
Got so lost we thought we would never get home  
You know the night when i gave my heart to you  
And you swore that you felt the same too  
You said that you would never ever leave me alone

Out of nowhere you were gone  
Into someone else's arms  
Should have known that she was more  
Than just a friend, all the things i never knew  
But i always trusted you  
Never thought that she would wind up in the end  
Your new girlfriend (your new girlfriend)

I believe what goes around comes around  
So stay out of the deep end or you'll both drown  
Even shallow water is over her head  
You broke my heart but baby hey life goes on  
Everything is down for a reason  
Now i can see for me there's something better ahead

Out of nowhere you were gone  
Into someone else's arms  
Should have known that she was more  
Than just a friend, all the things i never knew  
But i always trusted you  
Never thought that she would wind up in the end  
Your new girlfriend

I don't know what i was thinking to let us  
Get this far, cuz now that i see who you really are  
You can have a new girlfriend

Out of nowhere you were gone  
Into someone else's arms  
Should have known that she was more  
Than just a friend, to think inside i think i knew  
But i always trusted you  
Never thought that she would wind up in the end....
