

Stride

Hayden

Feeling right, feeling ok tonight,
You inside
I don't think I made the right decision here,
You and I we take it all in stride...
You and I rely on little things to get by.

Feeling good, feeling like I should,
Deep inside
I think I made the right decision here,
You and I we take it all in stride...
You and I rely on little things to get by...
You and I rely on little things to get by.
