

# Another Like You

Hayes Carll

You were smokin' on a cigarette  
Talkin' about the deficit  
Putting all them wild boys down  
Like a drunken Monalisa  
Or the leanin' tower of Pisa  
You're hanging off the edge of town

I overheard Afghanistan  
Is safer than a minivan  
Left me wonderin' what to do  
You're like a four leaf clover  
I just had to come on over  
I've never seen a woman like you

You were fallin' like the Alamo  
Drinkin' fast and talkin' slow  
Lookin' like it's time to go home  
Well, you're hitting on that stripper  
'Cause you can't afford to tip her  
Or just afraid of being alone

You was openly frustrated  
You said Dylan's over rated  
For singing tangos up and blues  
I don't know what I was thinkin'  
I can feel my heart a-sinkin'  
I never seen a fellow like you

And ain't that the way we do it's true  
We fall for the first one  
How come it always ends up  
The worst ones

Well, you're probably a democrat  
Why, what the hell is wrong with that?  
Nothing if you're Taliban

Oh, I see  
Well, I bet you slept with half the south  
Oh, don't you ever shut your mouth?  
Yeah, how much did you pay for that tan?  
More than you paid for your boots

Oh, shouldn't you be purgin'?  
Well, you're probably still a virgin  
I can't believe you're not on the view  
Let's get another round  
It's lookin' like we're trouble bound  
I have never seen another like you

Ain't that the way we do, it's true  
You take the breath from me  
It seems like you are bound  
To be the death of me

Oh, well, a couple hours later  
We were in the elevator

And makin' out like Bonnie and Clyde  
We were dizzy from the love we found  
Throwin' up and goin' down  
Lord, it's been a hell of a ride

I'm a-having trouble breathin'  
I probably should be leavin'  
Well, I'm up in room 402  
I gotta hand it to you  
There's a chance I'm gonna screw you  
Oh, I have never seen another like you

I don't know if it's forever  
But I'm glad that we're together  
I have never seen another like you
