

# Long Way Home

Hayes Carl

Ramblin boy you've been around  
Dallas to the underground  
High above and down below  
And places I was scared to go  
You sang it loud in case they heard  
Hanging on to every word  
Gentle as a lullaby  
Firecrackers in your eyes

I would give anything  
For one more night to run  
And one last song to sing  
You weren't asking much at all  
Just catch you when you fall  
On your own  
The long way home

What's that sadness in your smile  
You've been crying all the while  
Could you lean upon my shoulder  
In case you die or just get old  
So what are we supposed to do  
Just walk around forever blue?  
And all this hurry up and wait  
Was it chance or was it fate

I would give anything  
For one more night to run  
And one last song to sing  
You weren't asking much at all  
Just catch you when you fall  
On your own  
The long way home

You weren't asking much at all  
Just catch you when you fall  
On your own  
The long way home
