

Wild As A Turkey

Hayes Carlil

Well I'm wild as a turkey, higher than a Christmas moon
Empty as my wallet on a Sunday afternoon
I come around too fast, and I always leave too soon
Ain't that what they all say?

I come down from Memphis, with a broken down Corvette
A suitcase full of memories, and face you won't forget
You say you'll never love me, but the night ain't over yet
I'm gonna change your mind

Girl I've been a gambler since the age of twenty one
I've seen my share of troubles and the wrong end of a gun
This whole world's out to get me just because I have my fun
They ain't gonna slow me anyway

Right ain't right babe, and left ain't always wrong
I bet you're tired of dancing to the same old song
You look like an angel in a place you don't belong
I'm gonna take you away

Just because this place is closing that don't mean it's time fo
r bed
We don't need no sleep girl, we'll get plenty when we're dead
Oh leave these fools behind you and come with me instead
I'm gonna show you a time

Well I'm wild as a turkey
Higher than a Christmas moon
Empty as my wallet on a Sunday afternoon
I come around too fast, and I always leave too soon
Ain't that what they all say?
Ain't that what they all say?
