

Better Than Love

Hayley Kiyoko

I'll meet you back on Kingsley Street where we fell
For the only thing we ever feared
Back where all the silence made my heart melt
Where the sound of you was all I'd hear

Da da da da doo Da da da da doo
Da da da da doo Da da doo
Somebody tell me what's better than love, better than love
Make this minute last forever
Somebody tell me what's better than love,
Even when that love is gone you weren't wrong
To have been mine
Mine

Sitting watching movies couch tomatoes
Wanna kiss your eyes those almond eyes (Your eyes)
Oh take me to that laurel view
where it was just me and you
those were the days, holidays

Da da da da doo Da da da da doo
Da da da da doo Da da doo
Somebody tell me what's better than love, better than love
Make this minute last forever
Somebody tell me what's better than love,
Even when that love is gone you weren't wrong
To have been mine

I want you to know
That my heart is better than before
All those times,
Changing our minds
What you're worth
Made it fine
Cause you know
that in my mind

I'll meet you back on Kingsley Street where we fell
For the only thing we ever feared

Da da da da doo Da da da da doo
Da da da da doo Da da doo
Somebody tell me what's better than love, better than love
Make this minute last forever
Somebody tell me what's better than love, better than love
No you can't take it from me ever
You were mine You were mine
Somebody tell me what's better than love,
Even when that love is gone you weren't wrong
To have been mine
