

All With You

Hayley Westenra

On the wind the snow is drifting
Dances 'round my weary feet
Faraway a bell is ringing
Echoes through the empty streets

Oh, I can see you
I can still play make believe
Oh, I can feel you near me

I'll be sending a thousand kisses
I am far but I am all with you

On the night the air is bracing
Lights are gracing every street
I can hear the children singing
Midnight bringing hopes of peace

Oh, I can see you
I can still play make believe
Oh, I can feel you near me

I'll be sending you a thousand kisses
I am far but I am all with
I'll be sending a thousand wishes
Know on Christmas I am all with you

I'll be sending you a thousand kisses
I am far but I am all with
I'll be sending a thousand wishes
Know on Christmas I am all with

I'll be sending you a thousand kisses
I am far but I am all with you
All with you
