

# Dark Waltz

Hayley Westenra

We are the lucky ones  
We shine like a thousand suns  
When all of the color runs together

I'll keep you company  
In one glorious harmony  
Waltzing with destiny forever

Dance me into the night  
Underneath the moon shining so bright  
Turning me into the light

Time dancers whirling past  
I gaze through the looking glass  
And feel just beyond my grasp is heaven

Sacred geometry  
Where movement is poetry  
Visions of you and me forever

Dance me into the night  
Underneath the moon shining so bright  
Turning me into the light

Dance me into the night  
Underneath the moon shining so bright

Let the dark waltz begin  
Oh let me wheel, let me spin  
Let it take me again  
Turning me into the light
