

# Heaven

Hayley Westenra

A star shining in a universe far away  
My heart knows that we shall meet again some sweet day  
And you, you will be the flame that burns in my breast  
And oh, I know just by knowing you I was blessed.  
Yes I was truly blessed

Heaven, Heaven, ooh waiting there for me  
Heaven, Heaven, ooh always let it be

So why, tell me why the good die young my old friend  
I pray that heaven waits for everyone in the end  
And love, love is how we cross that bridge to the light  
A star that is what you are in my darkest night  
Be always by my side

Heaven, Heaven, ooh waiting there for me  
Heaven, Heaven, ooh always let it be

Heaven, Heaven, ooh waiting there for me  
Heaven, Heaven, ooh always let it be
