## Let Me Lie

## **Hayley Westenra**

Let me lie on grasses green On my mother earth I lean

Let me lie on grasses green On my mother earth I lean

Under burning sun Through my veins she runs

Let me breathe the forest air It's the life force that we all share Feel my burning tears

Heal me through as I lie Here with you Heal me through Let me sleep and keep me close

Heal me through as I lie Here with you Heal me through Let me sleep and keep me close

Let me lie on grasses green On my mother earth I lean Under burning sun Through my veins she runs

Heal me through as I lie Here with you Heal me through Let me sleep and keep me close

Heal me through as I lie Here with you Heal me through Let me sleep and keep me close

Let me lie on grasses green On my mother earth I lean Under burning sun Through my veins she runs

Heal me through as I lie Here with you Heal me through Let me sleep and keep me close

Heal me through as I lie Here with you Heal me through Let me sleep and keep me close

Under burning sun Through my veins she runs Her and I are one. Tištěno z www.txp.cz
