

## Winter's Dream

Hayley Westenra

The light of every star falls on you tonight  
The song you hold in your heart shines on as the darkness falls  
You can trust me to

Keep the wish till you come home  
Our dreams blow in, loves unknown  
I lie in the arms of winters ever after, I lie in your arms in  
a winter's dream

The snow is silently falling like memories unspoken  
The past is fading away as time is forever lost  
You can trust me to

Keep the wish till you come home  
Our dreams blow in, loves unknown  
I lie in the arms of winters ever after, I lie in your arms in  
a winters dream
