

# Take A Ride

Hazel O'Connor

I'm flying over mountains in my head  
I am riding through the eye of the storm

Yeah, I could fly, fly right out of the comfort zone  
or maybe I could take a ride, right on through  
the eye of the storm  
I think I'll take a ride, take a ride and not think about it  
Make a move, make a move in the right direction  
on a wing and a prayer, with the help, with the help  
of all of my friends  
I think I'll just feel the fear and do it, do it  
just feel the fear and do it, do it anyway

Take a vibe, take a vibe and turn it into good things  
Make a change, make a change from buzzing in the backroom  
Won't worry if I fall I sing a song, sing a song  
to lift me up yeah  
Just feel the fear and do it do it  
Just feel the fear and do it do it anyway

Take a chance, take a chance on  
this could be the right time  
Make a dream, make a dream you can  
make it come true babe  
All we gotta do is believe all we need, all we need and we shall receive  
Just feel the fear and do it, do it,  
Just feel the fear and do it, do it anyway

If I believe I can fly - then I can  
and if I want to take a ride then I shall
