

Take A Ride

Hazel O'Connor

I'm flying over mountains in my head
I am riding through the eye of the storm

Yeah, I could fly, fly right out of the comfort zone
or maybe I could take a ride, right on through
the eye of the storm
I think I'll take a ride, take a ride and not think about it
Make a move, make a move in the right direction
on a wing and a prayer, with the help, with the help
of all of my friends
I think I'll just feel the fear and do it, do it
just feel the fear and do it, do it anyway

Take a vibe, take a vibe and turn it into good things
Make a change, make a change from buzzing in the backroom
Won't worry if I fall I sing a song, sing a song
to lift me up yeah
Just feel the fear and do it do it
Just feel the fear and do it do it anyway

Take a chance, take a chance on
this could be the right time
Make a dream, make a dream you can
make it come true babe
All we gotta do is believe all we need, all we need and we shall receive
Just feel the fear and do it, do it,
Just feel the fear and do it, do it anyway

If I believe I can fly - then I can
and if I want to take a ride then I shall
