Take A Ride

Hazel O'Connor

I'm flying over mountains in my head I am riding through the eye of the storm

Yeah, I could fly, fly right out of the comfort zone or maybe I could take a ride, right on through the eye of the storm I think I'll take a ride, take a ride and not think about it Make a move, make a move in the right direction on a wing and a prayer, with the help, with the help of all of my friends I think I'll just feel the fear and do it, do it just feel the fear and do it, do it

Take a vibe, take a vibe and turn it into good things Make a change, make a change from buzzing in the backroom Won't worry if I fall I sing a song, sing a song to lift me up yeah Just feel the fear and do it do it Just feel the fear and do it do it

Take a chance, take a chance on this could be the right time Make a dream, make a dream you can make it come true babe All we gotta do is beileve all we need, all we need and we shal l receive Just feel the fear and do it, do it, Just feel the fear and do it, do it anyway

If I believe I can fly - then I can and if I want to take a ride then I shall
