hazydecay

Breathing, I hold you rest as I can  
Why you sleeping, please hold love to me  
I'll give you my life, I'll give you anything you would like  
Just hide in my arms, I will make miracles for your stars

I see it in your eyes, there is me  
I see it in my eyes, it's you  
Baby, will stay together and forever, me and you  
Baby, it's for a life time, be my sunshine, be with you  
Love is battle every know that, that's why love goes on and on  
Love is battle every know that, that's why love goes on and on

Dreaming, you dreaming with a charming smile  
Breathing, just closer, closer to me  
You give my heart wings, you give my heart wings  
Now you are the princess of my dream  
Just a little smile, finally I know I am home

I see it in your eyes, there is me  
I see it in my eyes, it's you  
Baby, will stay together and forever, me and you  
Baby, it's for a life time, be my sunshine, be with you  
Love is a battle and we know that, that's why love goes on and on
